EDUCATION

Hanyang University , B.S. in Information Systems	Mar 2023 – Feb 2026
GPA: 4.14/4.5	Seoul, Republic of Korea
Universidad Carlos III de Madrid , Data Science and Engineering	Sep 2024 – Jan 2025
Exchange Student	Madrid, Spain
Dongguk University DUICA , B.S. Computer Engineering	Mar 2021 – Aug 2022
GPA: 4.0/4.5	Seoul, Republic of Korea

PUBLICATIONS

Design and Performance Evaluation of a Website Fingerprinting Defense Technique Using Time-Series Interval-Based Probabilistic Transformations

Woosung Jung, Seunghwan Lee, Seohyeon Yoo

Korea Digital Contents Association Summer Conference 2025, Undergraduate Paper Competition

WORK EXPERIENCE

Hyundai Motor Company	Jul 2026 – Present
Solution Architect for a SAP HANA implementation project supporting Hyundai Motor's European sales subsidiaries.	
Korea Financial Telecommunications and Clearings Institute (KFTC)	Feb 2026 – Jul 2026
Operated Linux servers and cloud infrastructure, including system monitoring, troubleshooting, and incident response.	
SAP Labs Korea	Jul 2025 – Dec 2025
- Built an AI agent using Thinktank to analyze SAP HANA DB bugs and generate engineering reports. - Developed similar-bug retrieval and resolution recommendation features using collected and preprocessed software-quality data.	
National Pension Service	Dec 2017 – Dec 2023
Managed pension administration, subscriber and beneficiary services, retirement planning, and general administrative duties.	

SELECTED PROJECTS

AI-Based Travel Recommendation Service – KAIST MadCamp, 2024	[GitHub Link]
- Developed a ChatGPT-based travel planning and facial-recognition album service; selected as an Excellent Project. - Built and optimized the facial-recognition AI server and integrated the ChatGPT API. Tech: React Native, NestJS, Python, DeepFace, MongoDB, AWS.	
Secondhand Goods Auction Service – KAIST MadCamp, 2024	[GitHub Link]
- Developed a real-time auction service for secondhand goods and was selected as an Excellent Project. Tech: Express, MongoDB, AWS.	
Youth Asset Formation Service – Shinhan Securities, 2024	[GitHub Link]
- Built a service combining year-end tax optimization and ETF-based investment information for young adults. - Front-end and DevOps Developer; Tech: React, AWS.	
Sleep Diary Service – Hanyang University with LG Electronics, 2023	[GitHub Link]
- Developed a sleep-diary service using generative AI to visualize diary content. - Front-end and DevOps Developer; Tech: React, Spring Boot, AWS, DALL-E API.	

AWARDS

Gold Prize , Korea Digital Contents Association Undergraduate Paper Competition	Jul 2025
1st Place , FORIF Hackathon, Hanyang University Central Student Club	Jun 2024

EXTRACURRICULAR ACTIVITIES

Hanyang University – Tech for Impact with Kakao , Teaching Assistant	Mar 2025 – Jul 2025
KAIST School of Computing – MadCamp	Jun 2024 – Jul 2024
Shinhan Securities – Pro Digital Academy	Dec 2023 – Jun 2024
• Completed 970 hours of cloud and web full-stack development training covering AWS, React, and Spring Boot.	

SKILLS

- **Programming:** Java, JavaScript, TypeScript, Python, C/C++ , SQL
- **Backend / Frontend:** Spring Boot, Express, React, React Native
- **Cloud / Infrastructure:** AWS, Linux
- **Database:** SAP HANA, MySQL, MongoDB
- **Languages:** Korean (Native), English (TOEIC 895, OPIc IH)

CERTIFICATES

- Linux Master Level 2 (Oct 2025)
- Advanced Data Analytics Semi-Professional, ADsP (Sep 2024)
- Engineer Information Processing (Jun 2024)
- Securities Investment Advisor (Apr 2024)
- SQL Developer, SQLD (Apr 2024)
- Level 2 Administrative Manager (Dec 2021)
- Industrial Engineer Information Processing (Aug 2021)
- Computer Utilization Level 1 (Sep 2017)
- Korean History Proficiency Test Level 1 (Jun 2017)
- Word Processor Level 1 (Mar 2017)
